

Agenda Item # 6

ZON-UDC-002843-2024

View additional details on this proposal and all application materials using the following link:

[Applicant Materials for Consideration](#)

DETAILS

Location:

59 Hillcrest Road

Applicant / Agent:

Brad Newton, P.E., McFadden Engineering, Inc.

Property Owner:

John and James Boudreaux

Current Zoning:

R-1, Single Family Residential Suburban District

Proposed Zoning:

B-2, Neighborhood Business Suburban District

Future Land Use:

Mixed Commercial Corridor

Applicable Codes, Policies, and Plans:

- Unified Development Code
- Map for Mobile Comprehensive Plan

Proposal:

- Rezoning from R-1 to B-2
Any use permitted in the proposed district would be allowed at this location if the zoning is approved. The Planning Commission may consider other zoning districts than the proposed sought by the applicant for this property.

Commission Considerations:

1. Rezoning with two (2) conditions.

PLANNING COMMISSION VICINITY MAP - EXISTING AERIAL

The site is surrounded by commercial units and residential units.

APPLICATION NUMBER <u> 6 </u> DATE <u> May 16, 2024 </u>	 NTS
APPLICANT <u> Brad Newton, P.E., McFadden Engineering, Inc. </u>	
REQUEST <u> Rezoning from R-1 to B-2 </u>	

SITE HISTORY

The subject site first came before the Planning Commission at its August 22, 1991 meeting, where the property was rezoned from R-1, Single-Family Residential District to B-2, Neighborhood Business District. Then at its October 17, 1991 meeting, the Planning Commission granted a Planning Approval to allow a self-storage facility in a B-2 zoning district. The self-storage facility was never constructed.

At the Planning Commission's August 19, 2021 meeting, a one (1) lot Subdivision was approved, and a rezoning for the property from B-2, Neighborhood Business District to R-1, Single-Family Residential District was subsequently approved by the City Council. The Subdivision was recorded in Probate Court.

There have been no Board of Zoning Adjustment cases associated with the site.

STAFF COMMENTS

Engineering Comments:

1. Any work performed in the existing ROW (right-of-way) such as driveways, sidewalks, utility connections, grading, drainage, irrigation, or landscaping will require a ROW permit from the City of Mobile Engineering Permitting Department (251-208-6070) and must comply with the City of Mobile Right-of-Way Construction and Administration Ordinance (Mobile City Code, Chapter 57, Article VIII).
2. A Land Disturbance Permit application shall be submitted for any proposed land disturbing activity with the property. A complete set of construction plans including, but not limited to, drainage, utilities, grading, storm water detention systems and paving will need to be included with the Land Disturbance permit. This Permit must be submitted, approved, and issued prior to beginning any of the construction work.
3. Any and all proposed land disturbing activity within the property will need to be submitted for review and be in conformance with Mobile City Code, Chapter 17, Storm Water Management and Flood Control); the City of Mobile, Alabama Flood Plain Management Plan (1984); and, the Rules For Erosion and Sedimentation Control and Storm Water Runoff Control.
4. Any existing or proposed detention facility shall be maintained as it was constructed and approved. The Land Disturbance Permit application for any proposed construction includes a requirement of a Maintenance and Inspection Plan (signed and notarized by the Owner) for the detention facility. This Plan shall run with the land and be recorded in the County Probate Office prior to the Engineering Department issuing their approval for a Final Certificate of Occupancy.
5. The approval of all applicable federal, state, and local agencies (including all storm water runoff, wetland and floodplain requirements) will be required prior to the issuance of a Land Disturbance permit. The Owner/Developer is responsible for acquiring all of the necessary permits and approvals.
6. The proposed development must comply with all Engineering Department design requirements and Policy Letters.

Traffic Engineering Comments:

Driveway number, size, location, and design to be approved by Traffic Engineering and conform to AASHTO standards. Any required on-site parking, including ADA handicap spaces, shall meet the minimum standards as defined in Article 3, Section 64-3-12 of the City's Unified Development Code.

Urban Forestry Comments:

Property to be developed in compliance with state and local laws that pertain to tree preservation and protection on both city and private properties [Act 929 of the 1961 Regular Session of the Alabama Legislature (Acts 1961, p.

1487), as amended, and City Code Chapters 57 and 65]. Private removal of trees in the right-of-way will require approval of the Mobile Tree Commission. Removal of heritage trees from undeveloped residential sites, developed residential sites in historic districts, and all commercial sites will require a tree removal permit.

Fire Department Comments:

All projects within the City Limits of Mobile shall comply with the requirements of the City of Mobile Fire Code Ordinance (2021 International Fire Code). Fire apparatus access is required to be within 150' of all non-sprinklered commercial buildings and within 300' of all sprinklered commercial buildings. Fire water supply for all commercial buildings will be required to meet the guidance of Appendices B and C of the 2021 International Fire Code. The minimum requirement for fire hydrants is to be within 400' of non-sprinklered commercial buildings, within 600' of sprinklered commercial buildings, and within 100' of fire department connections (FDC) for both standpipes and sprinkler systems.

Planning Comments:

A detailed description of the proposed request is available via the link on Page 1 of this report. In summary, the applicant is requesting to rezone the subject site from R-1, Single-Family Residential Suburban District to B-2, Neighborhood Business Suburban District.

The site abuts a property to the North that is currently zoned B-2, and is developed with a gas station and car wash as well as a property zoned R-1 and is developed with a dwelling; to the South, an R-1 property developed with a dwelling; to the East, an R-1 property developed with a church; and to the West, by undeveloped B-2 property.

The site plan provided with the rezoning application depicts a commercial building with associated parking. While full compliance with development standards set forth in Article 3 are not depicted, the proposed development will require full compliance with the Unified Development Code (UDC). Any signage placed on the property will also need to meet the requirements of the UDC, and be permitted separately through the Planning and Zoning Department.

REZONING CONSIDERATIONS

Standards of Review:

The Unified Development Code (UDC) in 64-5-5.E. states that Rezoning is intended to carry out the objective of a sound, stable and desirable development and that casual change or amendment would be detrimental to the achievement of that objective.

The UDC goes on to say that zoning changes should be consistent with the Comprehensive Plan. However, the Comprehensive Plan and Future Land Use Plan (FLUP) and Map (FLUM) are meant to serve as a general guide, not a detailed lot and district plan; they are not a legal mandate for development. The FLUP and FLUM allow the Planning Commission and City Council to consider individual cases based on several factors including: surrounding development, classification requested, timing of the request, and the appropriateness and compatibility of the proposed use the zoning classification.

The UDC states that an application for rezoning shall include a statement of the justification for the proposed amendment that addresses all of the following:

- A. Consistency. Whether the proposed amendment is consistent with the Comprehensive Plan;

- B. Mistake. For a Rezoning, whether there was a mistake or error in the original zoning map; and
- C. Compatibility. Whether the proposed amendment is compatible with:
 - o The current development trends, if any, in the vicinity of the subject property;
 - o Surrounding land uses;
 - o Would adversely impact neighboring properties; or
 - o Cause a loss in property values.
- D. Health, Safety and General Welfare. Whether the proposed amendment promotes the community's public health, safety, and general welfare;
- E. Capacity. Whether the infrastructure is in place to accommodate the proposed amendment; and
- F. Change. Whether changed or changing conditions in a particular area make an amendment necessary and desirable.
- G. Benefits Consideration. In addition, consideration should also be given to the City's and the larger community's best interests and the need, benefit, or public purpose of the proposed request.

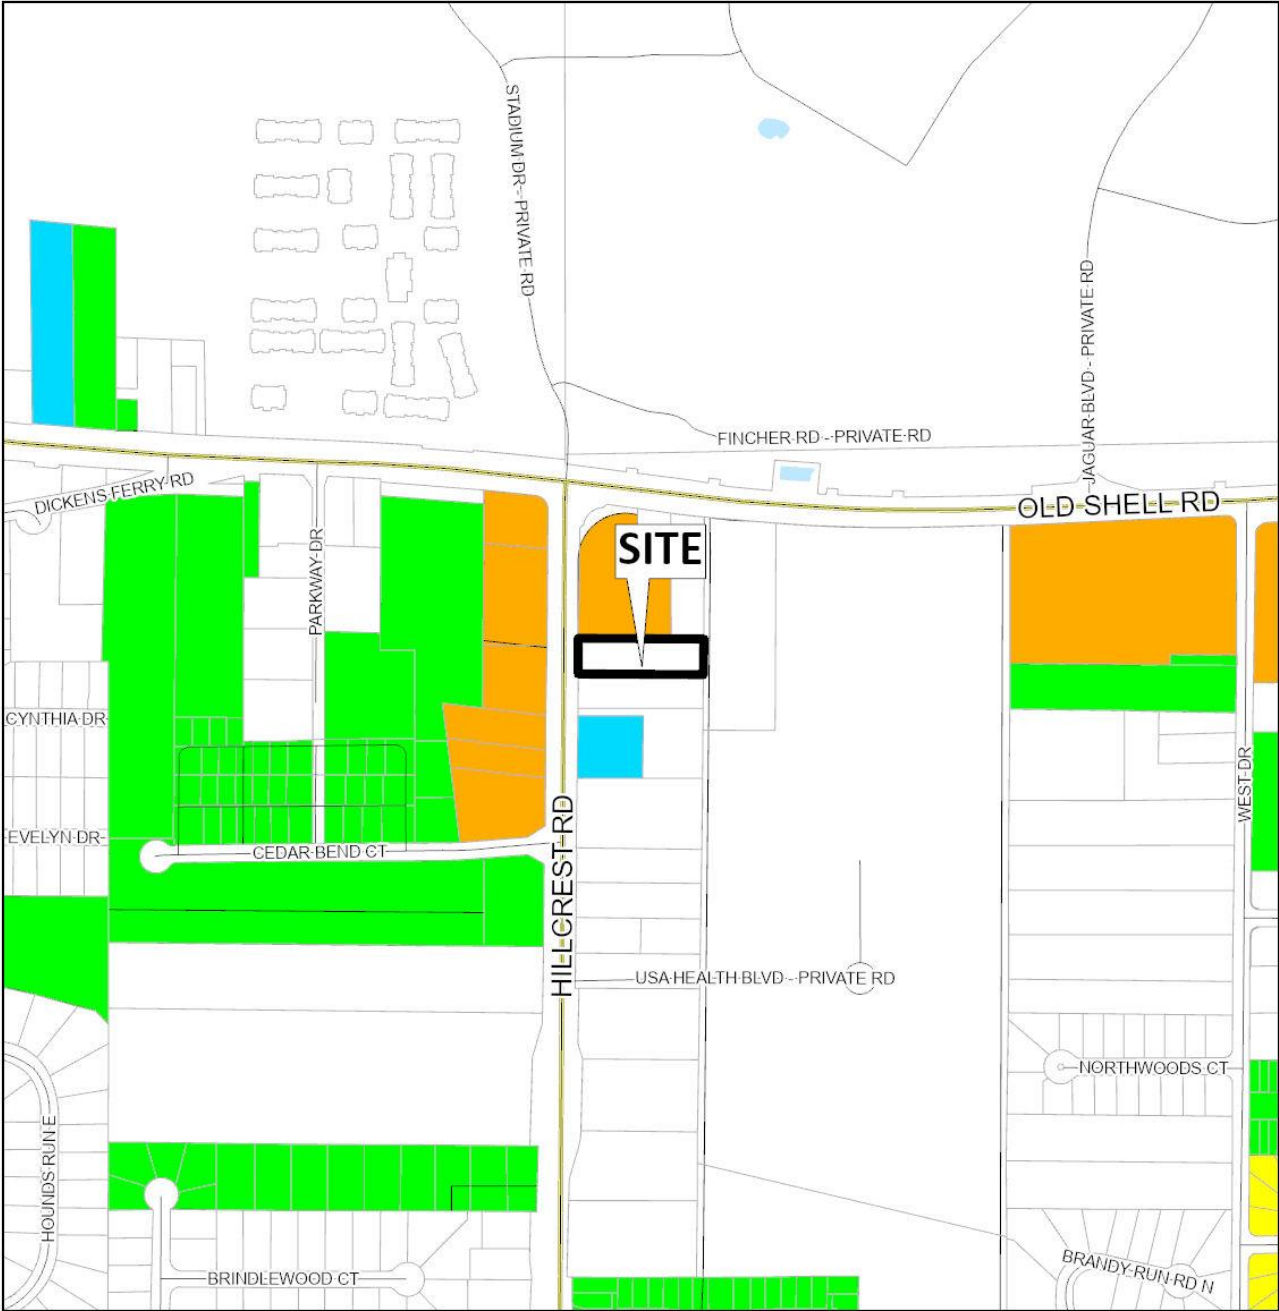

The applicant's responses to address the above criteria are available in the link on page one (1).

Considerations:

If the Planning Commission considers a recommendation of approval of the request to the City Council to Rezone the site to B-2, the following conditions could apply:

1. Compliance with all Engineering, Traffic Engineering, Urban Forestry, and Fire Department comments noted in this staff report; and,
2. Full compliance with all municipal codes and ordinances.

Zoning District Correspondence Matrix

- Directly Related
- Elements of the zoning category are related to the future LU category, but with qualifications (such as a development plan with conditions)
- Land use category is appropriate, but the district does not directly implement the category (e.g., open space in an industrial district)

MIXED COMMERCIAL CORRIDOR (MCC)

This land use designation mostly applies to transportation corridors west of I-65 serving primarily the low-density (suburban) residential neighborhoods. MCC includes a wide variety of retail, services and entertainment uses.

This designation acknowledges existing commercial development that is spread along Mobile's transportation corridors in a conventional strip pattern or concentrated into shorter segments of a corridor.

Over time, new development and redevelopment in Mixed Commercial Corridors is encouraged to raise design quality, improve connectivity to surrounding neighborhoods; improved streetscapes; and improve mobility and accessibility for all users of the corridor.
